***"Crafting bespoke excellence
for over 60 years, tailored to perfection"***

Whether it is about creating a functional and welcoming kitchen for a private residence or designing tailored solutions for large contract projects, Telese has always been committed to exceeding customer expectations through impeccable craftsmanship, the quality of materials, and the attention to detail that characterize every project undertaken.

01. HISTORY AND EXPERIENCE

Telese was founded over *60 years ago* as a large joinery.

Acquired by its founder Angelo Telese, it has deep roots in traditional craftsmanship. The experience gained over the years is the solid foundation upon which we build our kitchens and furniture items, adding artisanal care and industrial innovation to create environments that reflect the nature and desires of those who will inhabit them.

The company now has a well-established tradition
in the field of custom furniture, with decades
of experience in the industry.

Constantly evolving over the years,
it is now a *reference point* in the sector both
in Italy and internationally.

01. HISTORY AND EXPERIENCE

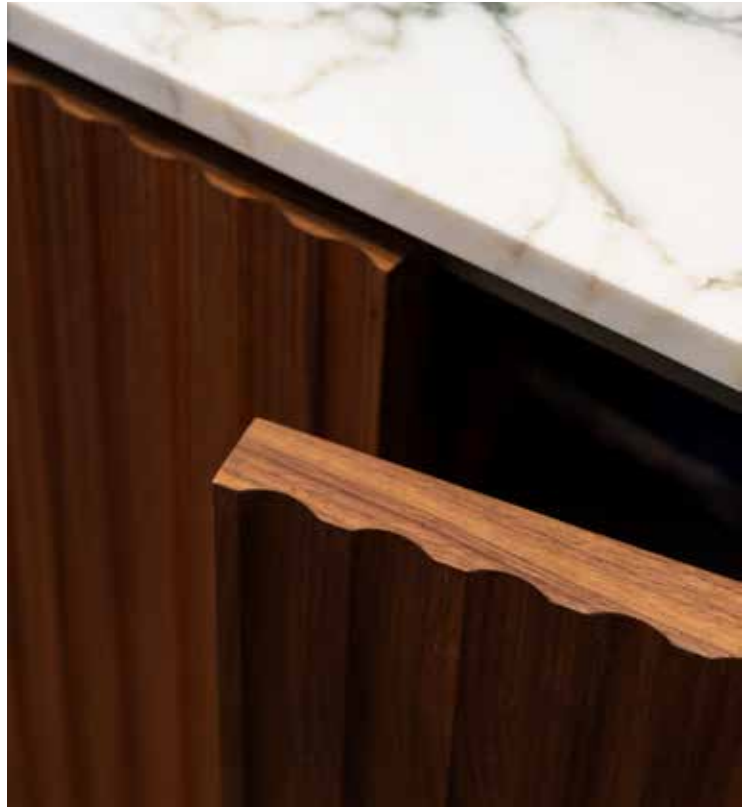

Our distinctive approach is completely bespoke production, characterized by *true tailoring* in the design and realization of furniture. Each piece is created with *artisanal care* and *attention to detail*, ensuring not only perfect adaptability to spaces but also high aesthetic and functional quality. The work phases follow strict quality standards, from conception to realization, ensuring excellent and customized results for every client.

02. MISSION AND VISION

Craftsmanship and Quality

We enhance artisanal mastery and the quality of materials used in the production of custom furniture. We combine cutting-edge technology for project development with meticulous artisanal processing in the final stages, ensuring high-quality standards in every detail.

Technology and Design

Every specific phase is carefully monitored within our facilities, equipped with state-of-the-art systems and a team of professionals working towards a single goal: to create the perfect environment for you. We promote innovation in design, combining contemporary aesthetics with optimal functionality.

02. MISSION AND VISION

Customization and Tailoring

A limitless approach to design Heights, depths, materials, accessories: everything can be chosen and modified to create a *harmonious whole* in perfect harmony with the spirit of the entire home. We offer completely personalized solutions that adapt to spaces and specific customer needs, with attention to detail and precision.

Reliability and Durability

We guarantee robust and durable products that maintain their beauty and functionality over time.

02. MISSION AND VISION

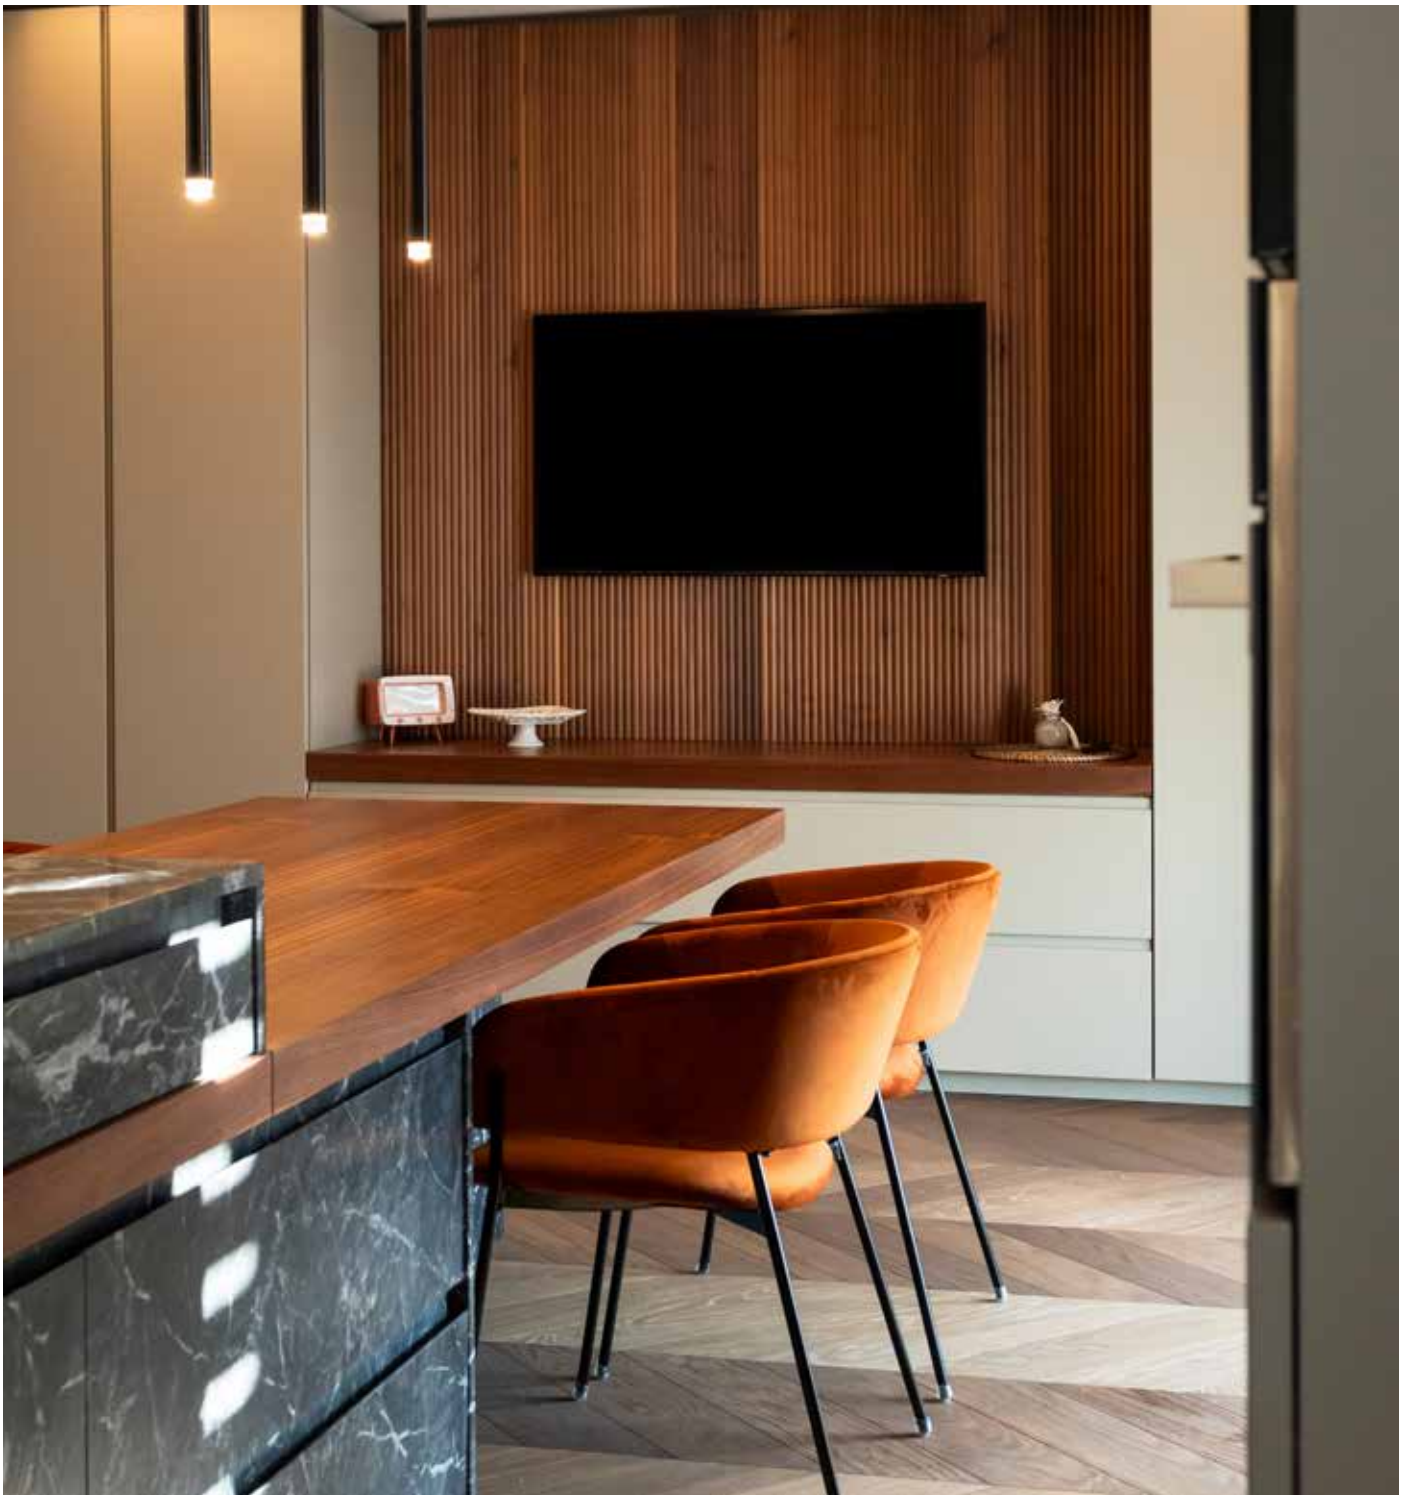

Sustainability

We are increasingly committed to sustainable practices in production and the sourcing of materials, respecting the environment and the community.

03. RESIDENTIAL

In the residential market, the company stands out for its ability to *transform* customers' visions into reality through *tailor-made solutions* for private homes. Each project is approached with a consultative mindset, where design and functionality meet to create unique and personalized environments that reflect the style and needs of the owners.

THE HEART OF THE HOME:
THE KITCHEN

03. RESIDENTIAL

Telese has always been renowned for its *excellence in the production of custom kitchens*, representing the pinnacle of our offerings. Offering a wide range of styles, from modern and minimalist to *classic and shaker*, the company is distinguished by its ability to satisfy every taste and aesthetic preference. Each kitchen is designed and built with a *bespoke approach*, where every detail is carefully attended to, ensuring a harmonious integration of functionality and design.

Kitchens are *completely customizable and modular*, allowing customers to choose from a variety of colors and finishes that reflect their personal style and surrounding environment.

The skilled use of *high-quality materials* such as marble, glass, and metals, in addition to wood, adds a touch of sophistication and modernity to every project

03. RESIDENTIAL

Our kitchens also feature cutting-edge internals, thanks to the integration of *innovative technologies* such as state-of-the-art drawers and containers, designed to maximize space and enhance ergonomics. Every component is designed to provide *daily practicality* without compromising overall aesthetics.

In addition to custom kitchens, the company excels in creating personalized furniture for every area of the home.

The range includes *wardrobes, bookshelves, TV stands, custom doors, nightstands, tables, sideboards, and bar furniture...*

**Each piece is crafted with the same artisanal
commitment and attention to detail that
characterizes our kitchens, ensuring perfect
aesthetic and functional integration
in any space.**

LIVING AREA

03. RESIDENTIAL

For Telese, the living area is conceived as a *refuge of style and functionality*, where every detail is designed to enhance the living experience.

The strategic use of modular furniture, makes it possible to adapt the space to different needs, allowing you to optimize every corner.

We offer a wide range of solutions, from elegant bookcases and shelves to customized tables, combined with doors that enhance *the harmony of the spaces*.

Our boiserie, made with artisanal care, are perfect for enriching the walls, giving character and warmth to the living room.

03. RESIDENTIAL

It will be essential to create a *welcoming and versatile environment*, equipped with areas for relaxation, conversation and entertainment. The furnishings of the living area must reflect the vision of the design of the spaces. Whether you opt for a minimalist, boho-chic, industrial or classic style, it is essential to choose elements and finishes that help transform the home into a unique place. Investing in the design of this environment means enriching the quality of life.

PROJECTS

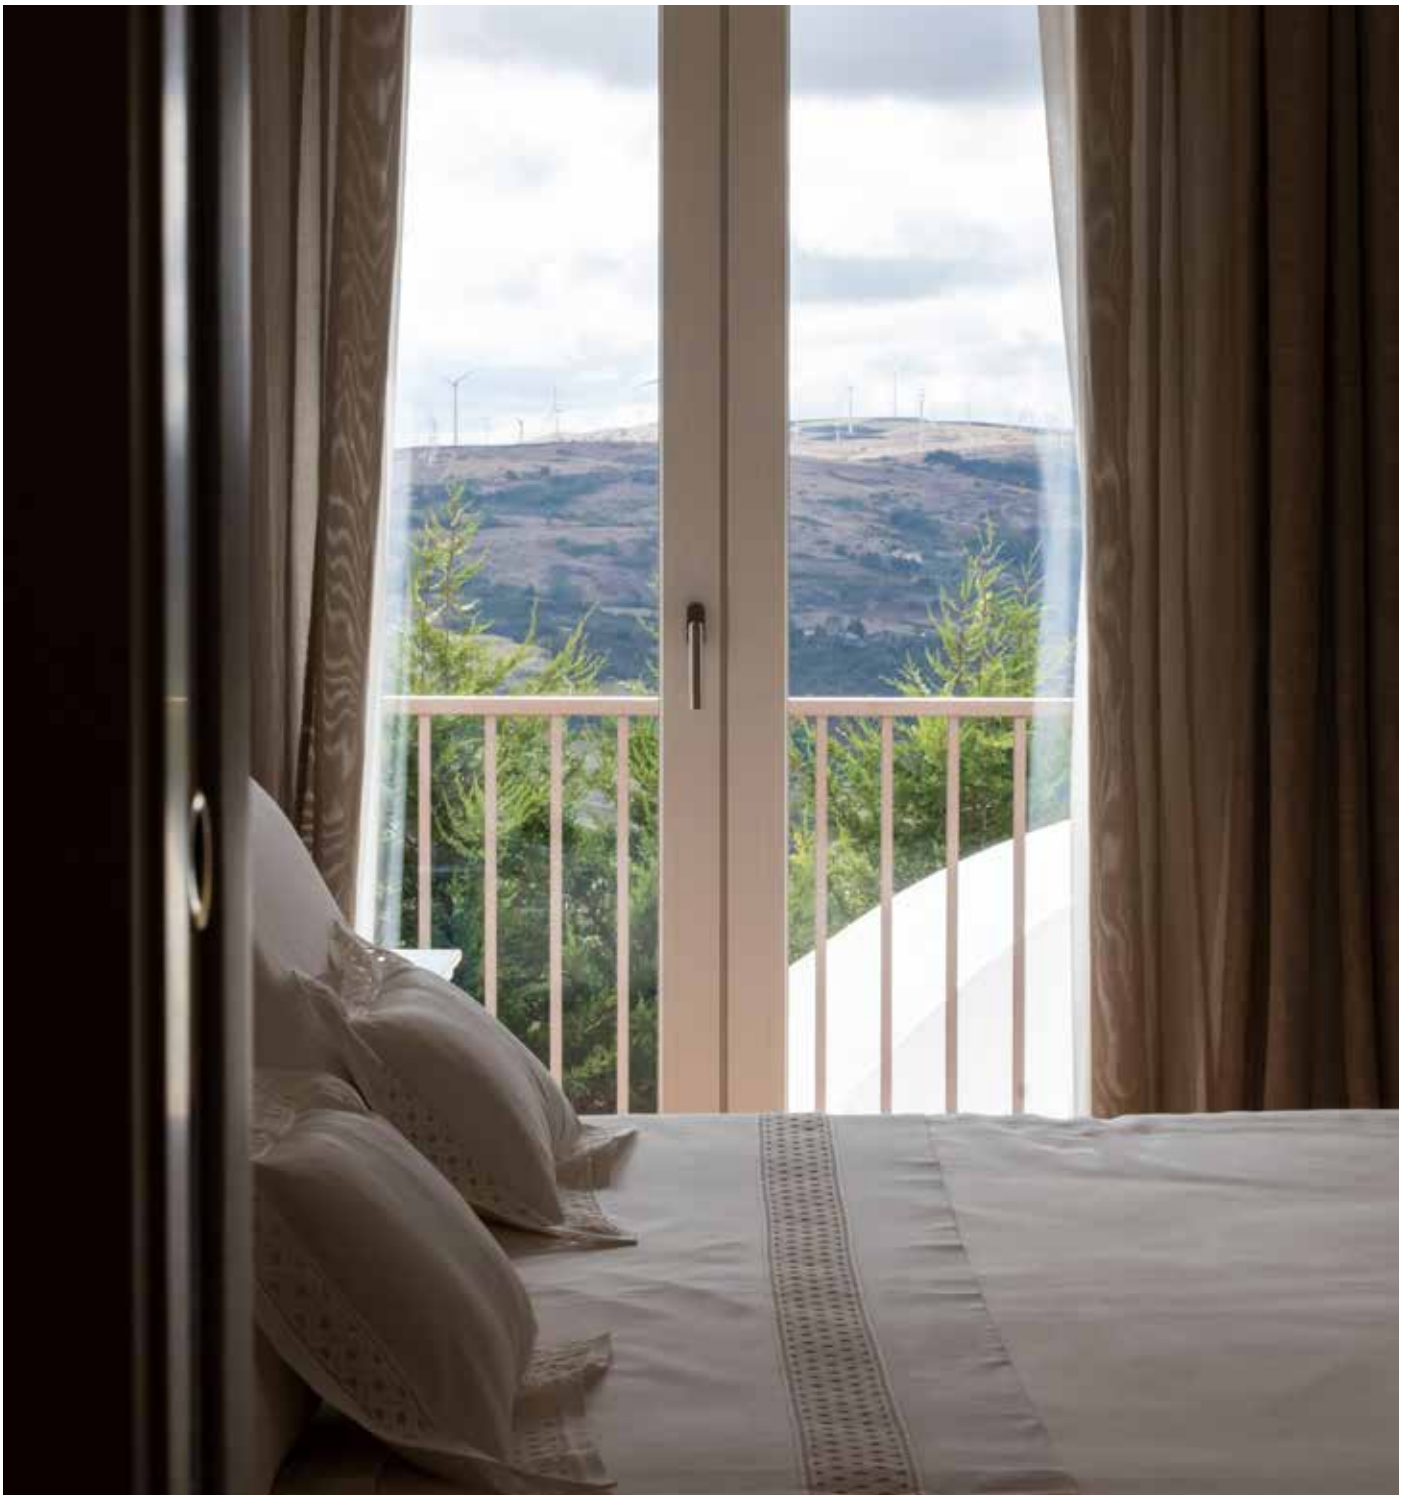

SLEEPING AREA

03. RESIDENTIAL

In the sleeping area, every detail must respond to the need for *comfort and order*, and our company is here to transform this space into a personalized relaxation corner.

We offer *innovative solutions* for wardrobes and walk-in closets that optimize space and respond perfectly to customer needs by combining functionality and design and allowing you to make the most of every corner of the sleeping area.

Each piece will be made with *high quality materials and customized finishes*, guaranteeing an elegant and current appearance, but also durability over time.

03. RESIDENTIAL

The custom-designed walk-in closets offer intelligent organisation, transforming even the choice of daily clothes into a pleasant experience.

We are dedicated to creating spaces that reflect the identity of those who live there, elevating the sleeping area to a habitat of tranquility, style and practicality.

PROJECTS

04. CONTRACT

In the contract sector, the company focuses on large-scale supplies for commercial projects such as hotels, offices, restaurants, residences, and shops... We collaborate with architects and interior designers to provide tailor-made solutions that meet the specific technical and aesthetic requirements for each environment.

Our ability to manage complex and large-scale projects is supported by solid experience and flexibility in adapting to the demands of the global market.

Our experience is now well-established in this sector, allowing us to operate successfully in various international markets while maintaining a focus on quality, reliability, and customer satisfaction.

We are proud to collaborate with significant *international partners* to turn architectural visions into reality.

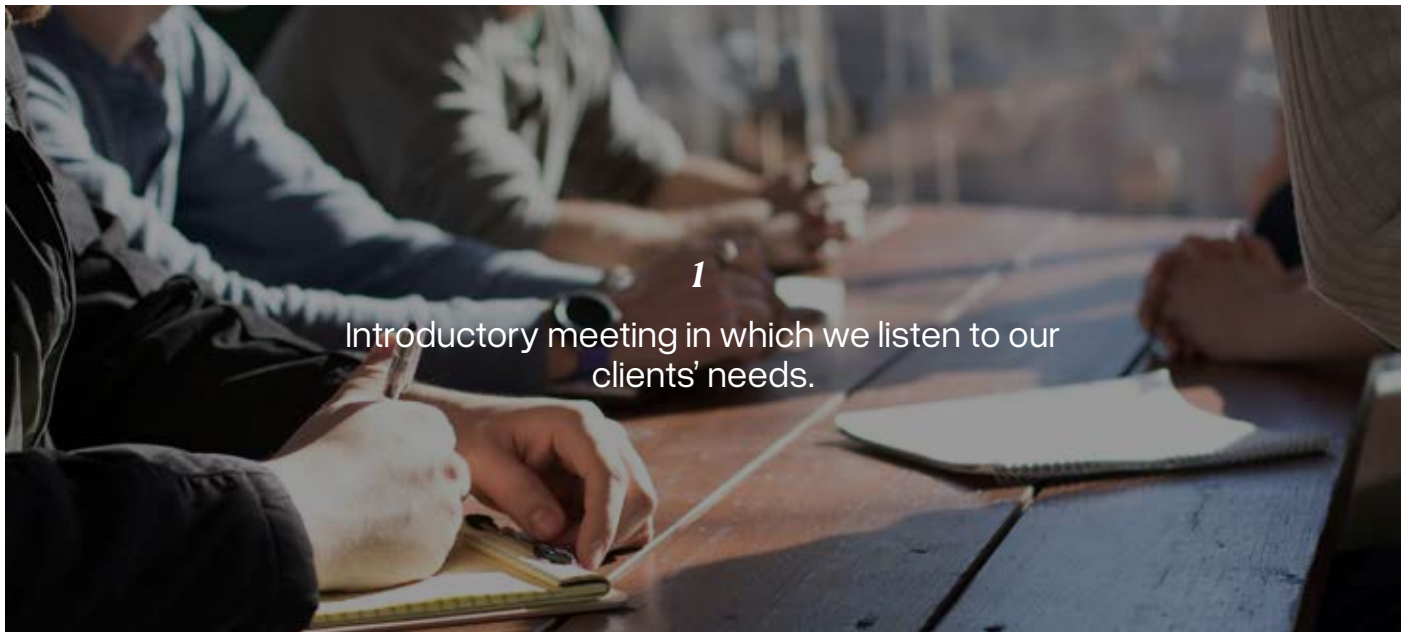

05. WORK PHASES AND LOCATIONS

From the site visit to customer care, *nothing is left to chance.*

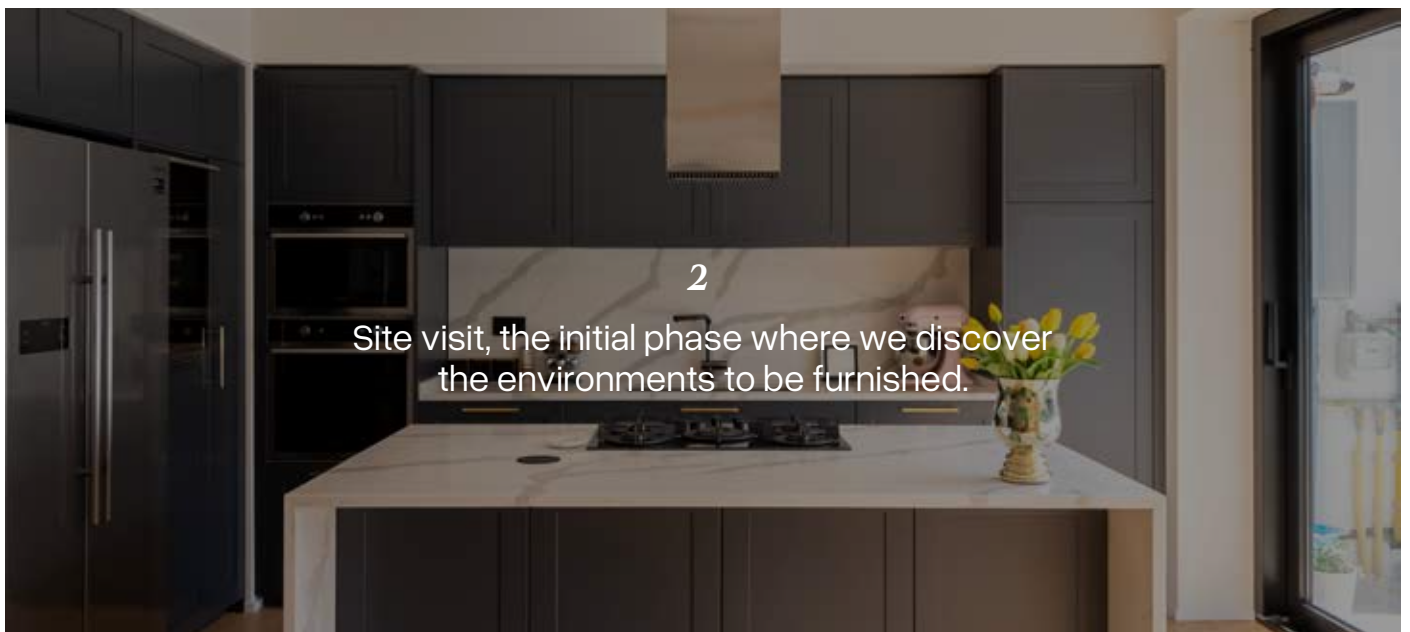

Telese, thanks to various units and teams with different expertise, monitors all phases of the project from the idea to the post-sales phase.

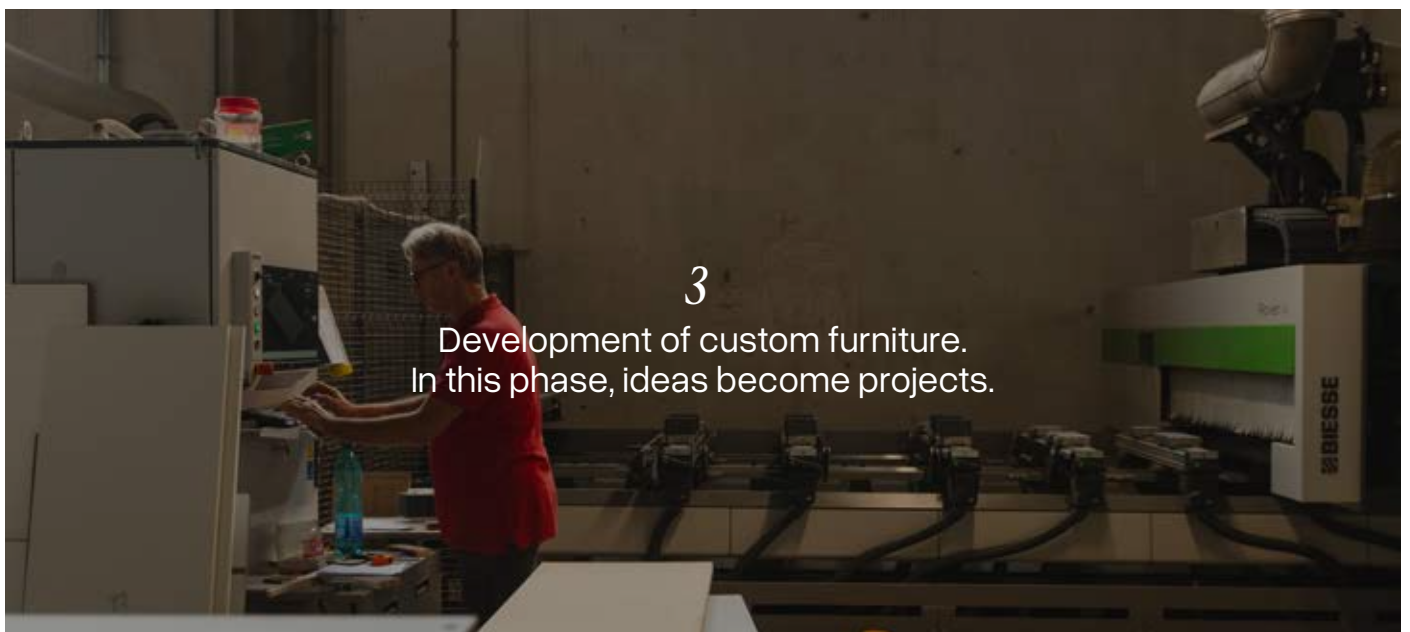

1

Introductory meeting in which we listen to our clients' needs.

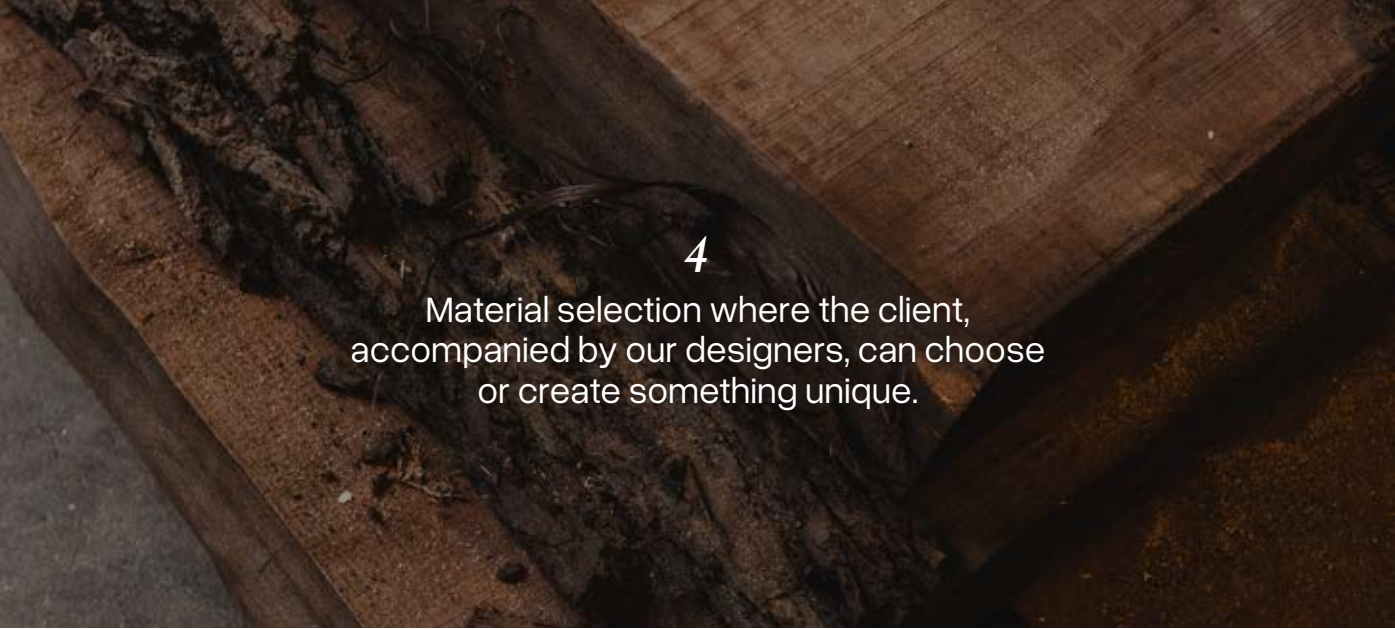

2

Site visit, the initial phase where we discover the environments to be furnished.

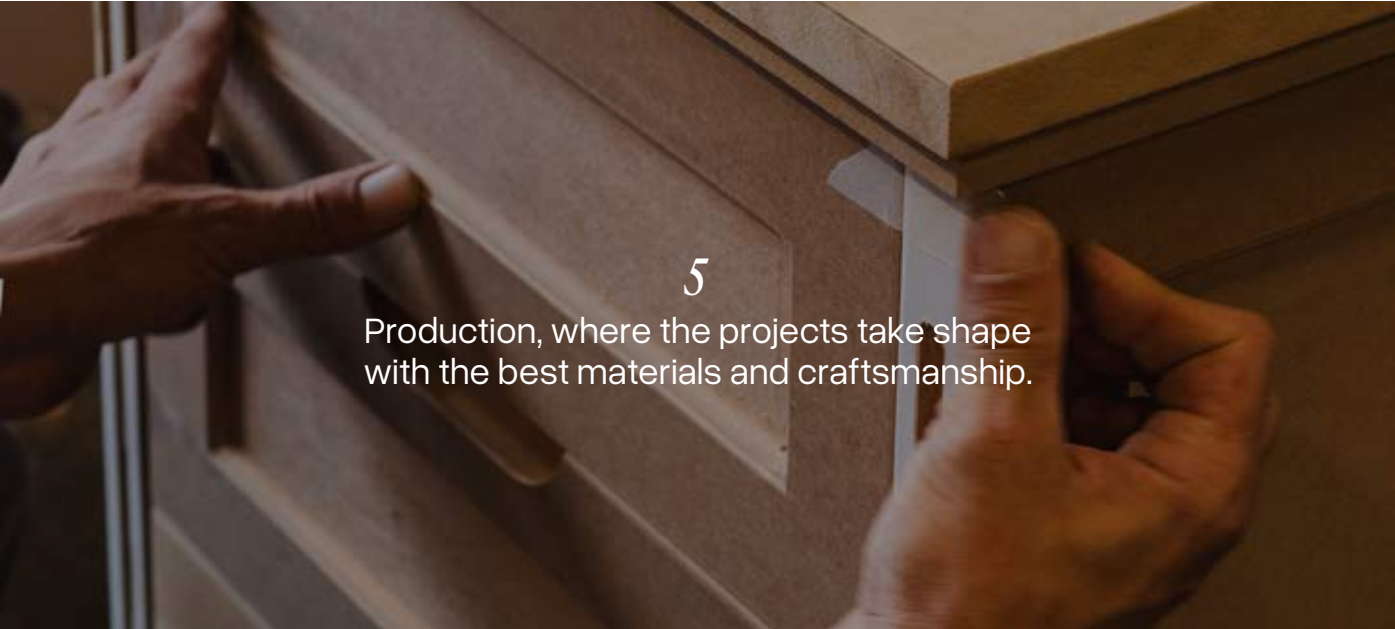

3

Development of custom furniture.
In this phase, ideas become projects.

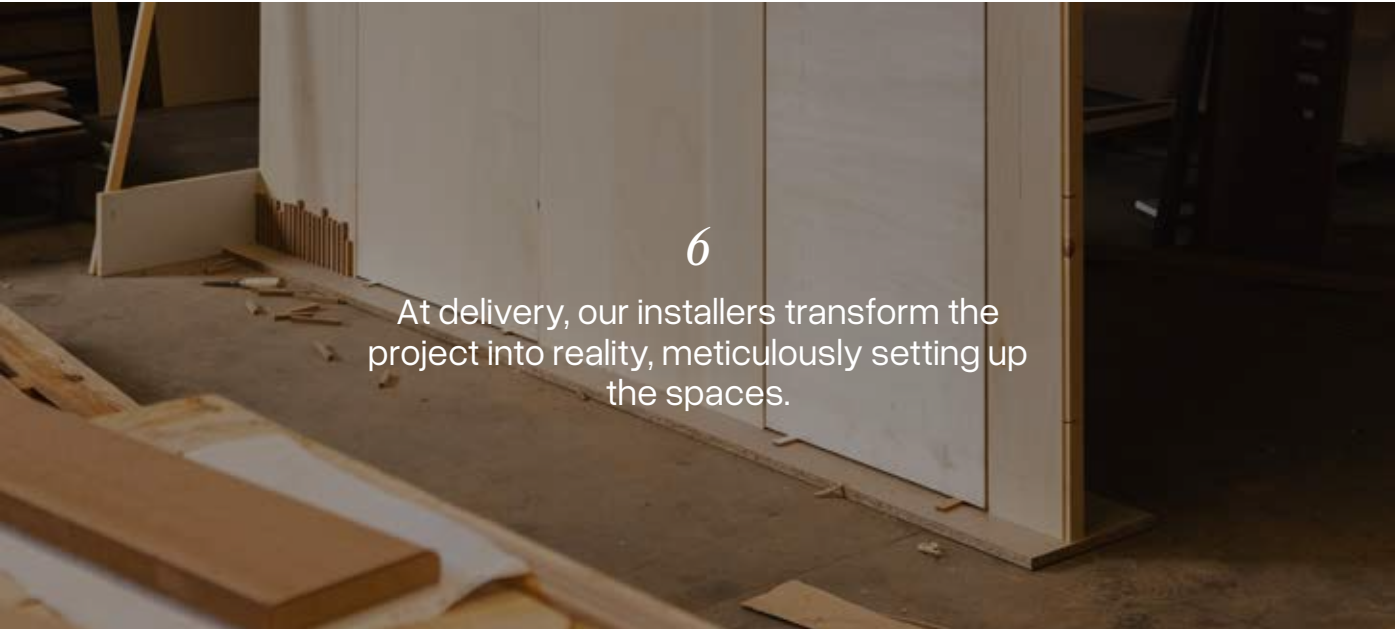

4

Material selection where the client, accompanied by our designers, can choose or create something unique.

5

Production, where the projects take shape with the best materials and craftsmanship.

6

At delivery, our installers transform the project into reality, meticulously setting up the spaces.

05. WORK PHASES AND LOCATIONS

From design to delivery, we are committed to exceeding customer expectations through impeccable customer service and solutions that reflect our commitment to excellence and personalization.

Telese is now located in Bellizzi, with its historical headquarters where the entire production takes place, as well as in Milan and London.
